

# Poster

MEAM 5170

Suggested before Thursday (December 8, 2022)

## 1 Printing Instructions

To print your posters, please e-mail "tone@seas.upenn.edu" including the course title "MEAM517". You should send a .jpg file of your poster and poster size should be 30x40 in inches. The poster should be in landscape format (orientation).

It is highly suggested to send your posters to printing before Thursday (December 8). Please allow at least 24 hours for poster production respecting the rules of the copy center. Also please be aware that the copy center is closed during the weekend. You will not be able to print your posters during the weekend using the copy center.

It is your responsibility to bring the poster. Other printing options exist (e.g. Kinkos), but using SEAS copy center will be free of charge.

## 2 Poster Instructions

You can find a poster template on Canvas. We suggest having the following sections: introduction/motivation, methods and results (please check the template). Please also check the posters from previous years on canvas.

Even though we provided a template, posters can be created in many ways, for instance using PowerPoint or LaTeX. If you wish to include a video in your presentation, you may bring a laptop, tablet, or similar device to display the video. If you no such device you can use, reach out to the teaching staff and we will try to help. We suggest making your poster high resolution and checking the quality of poster by zooming in before sending it to be printed.
